Steel crochet hook for those who want to enjoy bead crochet

① Hook for firm and beautiful stitches

To make neat stitches with a bead, this product has a hook smaller than that of existing steel crochet hooks. The shape of the hook enables users to easily pull the thread out of firmly crocheted stitches.

① Hook

② Body of hook

② Body of hook to make it easy to pull down a bead

The length of the body of hook, which is shorter than that of existing steel crochet hooks, is best suited to pull down a bead. The body of hook enables users to crochet smoothly while pulling down a bead.

③ Cushion Grip

③ The shape of the grip allows users to hold the grip in two ways: pencil holding and knitting-needle holding

Users can hold the grip without undue stress by making proper use of the thumb stopper, which was created based on ergonomics. Wrist strain can be reduced, allowing users to crochet comfortably for a long time.

Sucre No.0 (TB13-0e)

ETIMO Rose No.0 (TEL-00e)

The length of the body of hook allows users' finger to reach the hook tip, so that users can crochet smoothly while pulling down a bead.

Using different tools for different purposes makes a difference in terms of the quality of works and the comfortability of crocheting.
