Steel crochet hook for those who want to enjoy bead crochet

1. Hook for firm and beautiful stitches
To make neat stitches with a bead, this product has a hook smaller than that of existing steel crochet hooks. The shape of the hook enables users to easily pull the thread out of firmly crocheted stitches.

2. Body of hook
The length of the body of hook, which is shorter than that of existing steel crochet hooks, is best suited to pull down a bead. The body of hook enables users to crochet smoothly while pulling down a bead.

3. Cushion Grip
The shape of the grip allows users to hold the grip in two ways: pencil holding and knitting-needle holding. Users can hold the grip without undue stress by making proper use of the thumb stopper, which was created based on ergonomics. Wrist strain can be reduced, allowing users to crochet comfortably for a long time.

4. Body of hook to make it easy to pull down a bead
The length of the body of hook, which is shorter than that of existing steel crochet hooks, is best suited to pull down a bead. The body of hook enables users to crochet smoothly while pulling down a bead.
