

CarryC
Long

Designed by Kazuko Murabayashi

- Rotary cable joint prevents twisting of the cable
- Exceptionally smooth cable-needle joint
- As a rubber ring is applied to the joint, needles will not loosen while knitting
- It is easy to attach without the use of any tools

Knitting Needles

carryC

CarryC
Long

Let's enjoy knitting anytime, anywhere by carrying needles of 66 different size combinations in your bag

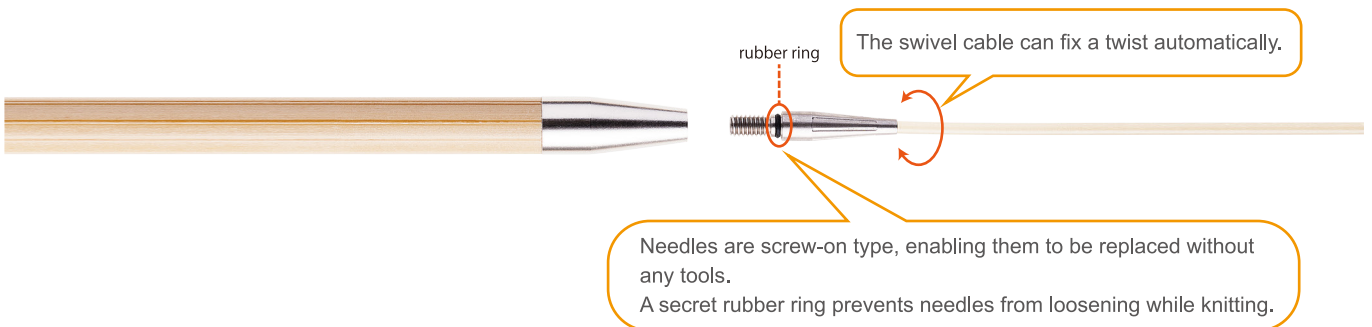

The needles and cables in TCC-02 or TCC-10 can be used in 66 different combinations.

The following products are sold individually, offering a wide variety of size combinations: 7mm, 8mm and 9mm needles; and 100cm, 120cm and 150cm cables. (* 120cm and 150cm cables are available only for CarryC Long.)

●Easy gauge adjustment!

When a gauge swatch is larger than expected, it is easy to make adjustments by replacing the needles with thinner needles.

●Good to carry!

This set offers a compact carry-case and you can enjoy knitting on-the-go, anytime, anywhere, regardless if you are on a train, on a plane or in a hotel room.

●There are two different sizes of needles to choose from

Knitters can choose a favorite size according to their hand dimensions and the way to knit.

Knitting Needles

Cable · Adapter · Stopper · Gauge with built-in yarn cutter for Interchangeable Knitting Needles of CarryC Long, carryC, carryT.

Various combinations are available. The cable can be extended by using adapter. The needles can be used as single point needles with knob.

When many cables and stoppers are needed to knit multiple items at one time, it is recommended to purchase products shown below individually.

Cable

- Exceptionally smooth cable-needle join.

- For using as double-ended crochet hooks for Tunisian crochet, connect two carryT crochet hooks on both ends of the cable.

Stopper

- For using as a long Tunisian crochet hook, connect one carryT crochet hook on one end of the cable and one stopper on the other end.

- It is convenient for making temporary bindings when taking a break from knitting.

Adapter

- The adapter is useful for lengthening cables.

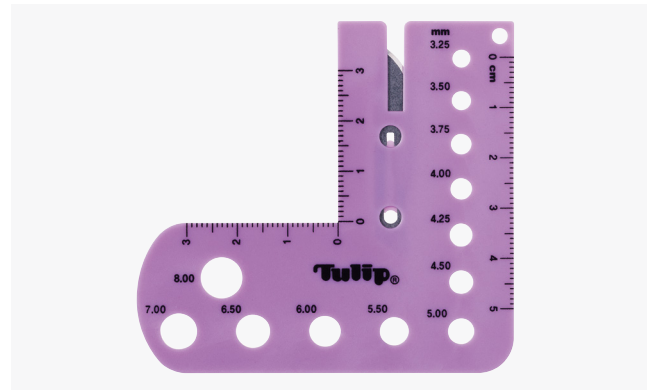

- The non-gradational joint (connector) is exceptionally smooth, making it difficult for yarn to get caught.
- The flat center prevents the adapter from turning over.

Gauge with built-in yarn cutter

- This gauge with built-in yarn cutter is good to carry.

- The hole in the gauge can be used to identify the size of a needle.
