Embroidery Pouch Kit “Dragonfly”

EK-001e

Pouch

The outer fabric is 100% Linen, Ramie which is easy to pierce and provides natural antibacterial and deodorizing effects.

The pattern is hand-printed with ink that does not wash off in water.

Embroidery needles

Their high-quality eyes that prevent snagging keep beautiful threads intact, while their smooth piercing enables easy embroidering.

Threads

The threads are 20-color No.25 threads made of cotton of the highest quality and a silver polyester thread, which lends a sheen and a 3D appearance to the embroidery.

*Any leftover threads can be used to make tassels and embroider other personal items.

- Enjoy every stitch you make, and savor your embroidery moments.
- You can embroider the entire pattern or just part of it. Either way, you will make a lovely pouch.

< How to embroider >

The pouch is semi-finished, and the inside of the bottom is not sewn in order to make it easier to embroider. Please have fun by embroidering with the pouch held in your hand. After you finish the embroidery, sew up the bottom of the inner fabric with small stitches, and the pouch is ready for use.

Size of a completed pouch : 210mmx130mmx60mm

JAN : 4974723717841

Designed by Christel Gouze

An embroidery designer. Born in the south of France, she established Un Chat dans L'aiguille (A Cat in the needle) as an embroidery brand so that she could inspire woman to enjoy the traditional French embroidery technique which was passed down to her by her grandmother. Featuring modern design blended with images from nature, such as cats, flowers and animals, she is particular about beautiful color combinations and about simple and warm designs which anyone can embroider easily.
