## PINCUSHION A series of pincushions in 12 colors representing the months.

"PINCUSHION" received Encouragement Prize of the 16th HIROSHIMA GOOD DESIGN AWARD in Product category.

### Cherry wood base

As the material for the pincushion base, we have selected gentle-looking cherry wood from various kinds of wood. Giving importance to maintaining a texture and appearance unique to the natural material, we have designed the base to be comfortable to the touch and provide steadiness for your needlework.

### Cloth and padding

Placing the highest priority on having needles smoothly go into the pincushion, we have selected thick, high-quality cotton sheeting as cloth for the pincushion. With a very smooth and soft texture, the cloth helps you smoothly insert needles into the pincushion. We have also carefully selected the padding material to prevent your needles from rusting even during long-term use. All materials are produced in Japan.

### Cellulose-Head Pins

The Cellulose-Head Pins that are included in this package are TULIP NEEDLES. The founder of Tulip, Atushi Harada, used cellulose to create the pins head so that each child's name could be written on the head of every pin. It is with this in mind that each pin is treated precious in home economics classes in primary schools. Even today, TULIP NEEDLES are used in the sewing sets of primary schools all across Japan.

### January

THP-001e

EAN : 4974723716332

For needlework lovers

## PINCUSHION

和の色、そして  
全て国産の厳選された素材

A pincushion for each season.

A series of pincushions in 12 colors representing the months. Pincushions for the 12 months are in Japanese-style colors representing the seasons. We use well-selected materials such as base, fabric and padding that are all produced in Japan. Cherishing the time-honored traditions of Hiroshima Needle that has a history of over 300 years, we produce a high-quality pin included in this set. We use Japanese-style colors and well-selected materials all produced in Japan.

季節の色をイメージした十二か月の「針やま」シリーズ。各月の「針やま」は、季節にあった和の色を選びました。台座、生地、中綿は、全て国産の厳選された素材を使用しています。セツトのまる針は、二百年以上の歴史を誇る広島針の伝統を大切に作った、高品質な針です。
