## Upcycled packaging that inspires the creativity of craft lovers.

For the packaging, we use "Hybrid Bagasse FS Rough White Paper," eco-friendly paper partially made from bagasse, or sugar cane residue.

On the front side, there is a 1cm by 1cm square grid. The grid can be used as a ruler.

Along the fold of each side of the packaging, there is a perforated line, along which you can tear to separate the front and back. On the back side, you will find instructions on how to use the product, so please keep it in a safe

Product information is given with illustrations so that beginners can easily understand how to use the product. Check out the video on how to sew on snap fasteneres and other auxiliary items.

If you cut around the corners of the grid, you can make a handy pattern paper for pockets.

The paper grid can be transformed into a small box for storing small items and sewing equipment. For example, buttons and head pins.
