**CarryS Interchangeable Bamboo Knitting Needle Set 1set**

**Cable for CarryC / CarryT 40cm 1pc.**

TCS-13

CTMM-22

① Connect CarryS needles to both ends of the 40cm cable and knit the main tube. Knit up to the decrease row.

② Transfer half of the stitches each to two CarryS needles connected to a 5cm cable. Use the third needle to knit the decrease row.

**CarryS CarryT**

Switch needles to create pieces combining knitting and Tunisian crochet technique.

**How to interchange knitting to Tunisian crochet**

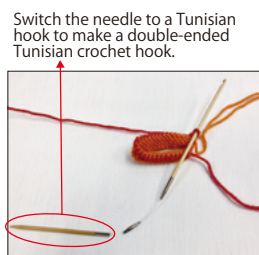

① Switch the first end of the CarryS needles holding stitches to a Tunisian hook.

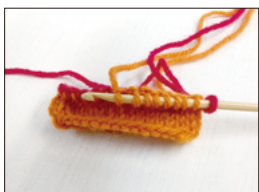

② Use yarn in another color to start crocheting RP on the wrong side in double-ended Tunisian crochet.

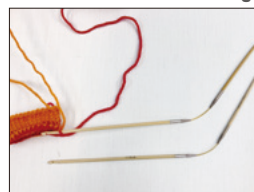

③ After you have crocheted half a round of RP, switch the Tunisian hook as in the photo.

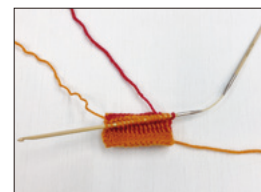

④ Use the hook to finish the rest of the stitches, then switch the needle on the opposite side to a Tunisian hook.

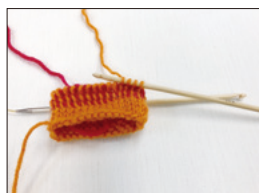

⑤ Continue to double-ended Tunisian crochet the required number of rounds in spiral.

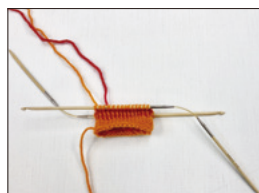

⑥ After you have finished crocheting up to RP, switch to the combination of needles as shown in the photo.

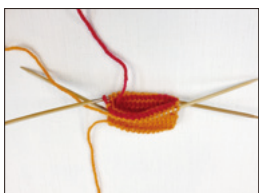

⑦ Crochet half a round of FP.

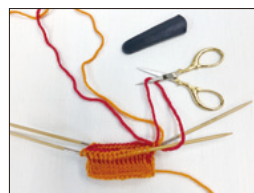

⑧ Finish the remaining half of the stitches using the other needle prepared in step ⑥.

⑨ Finished the remaining stitches.

⑩ Switch the Tunisian hooks to knitting needles.

⑪ Cut RP yarn, leaving a long tail and pulling the yarn through the loop.

⑫ Knit through back loop in the first round with the switched needles, then return to regular knitting in the next round.
